VR Games Guarantee Policy

We resolve to promote and operate the VR Games project with excellent work ethics and earn a good reputation for VR Games. We guarantee that every user and participant can be proud of being a part of this project.

We guarantee that, in case of necessity, we would be able to conduct a financial audit and disclose the valid and transparent account of our revenues and their use.

The main goal of the VR Games is to use the money for the expansion of the VR Games facilities and arcades, and we aim to use the funds raised through the ICO in the well-defined manner. We also aim to make the money or fund collection mechanism as transparent as possible, and also to make it comprehensible to our contributors and users.

We guarantee that every user and contributor would reasonably be informed, usually through our website, about the progress of the expansion project of VR Games, and the deployment of the funds collected.

We guarantee that every user will get to know the periodic reports or progress about the current developments in the project. These periodic updates may be in any of the following forms viz. website, email, posting on the social media platforms and social networks, etc.

We are committed to include the appropriate and relevant opinions and suggestions of the contributors and users in the decision-making process as much as feasible.

We guarantee that we will take all the desired steps and actions to secure the privacy of our users and contributors to the best of our knowledge and capabilities in accordance with the relevant and prevalent laws and regulations.

The data protection of our users is one of our top priorities. We, therefore, guarantee that the personal data of our users is protected from the possible risks of fraud and breach in all the possible and feasible ways.

However, in case of the data safety, there are always evolving contingencies and unforeseen risks. If there are cases of breach or

attempts at fraud, we would aim to resolve the cases as efficiently as possible.

In the present times, no computer security system is entirely foolproof and the internet is not a very secure method of transmitting information. As a result, we cannot control and guarantee fully that we would be able to provide all types of protection of your data or that there would not be any unauthorized access or use of that information. Yet, we guarantee to take the reasonable steps to protect the security of your information and data.

Our website operates continuously 24X7. Our online support centre works from 8:00 till 20:00 PST, subject to change as required, to serve the valued customers/users and resolve their issues. Every email received by us would normally be answered during two business days.

We also guarantee that we will use the most appropriate technologies to protect the data of the users. We also guarantee that we will serve all the customer and users in the best possible manner.
